- Developed the Parser which converts .txt file into .xml file
- Automated the Data parsing from generated XML file
- Key Skills: Python, OOP, file parsing

### WORK EXPERIENCE

#### **Library Development**

- Worked on python based library creation to reduce the efforts of Automation developer.
- Library was based on Automotive domain work like applying brakes, accelerating vehicle, start vehicle, stop vehicle, etc.
- Key Skills: Python, OOP, Autoval, INCA

#### **Web Development**

- Worked in Designing the structure of internal website
- Defined the required APIs
- Created certain backend APIs
- Key Skills: Node js, Express js, MongoDB, Authentication

# Tata Consultancy Services 01/2020 -04/2020

#### Intern

- Created Rest APIs for Employee Management System.
- Modules: Employee, HR, Admin
- Key Skills: JavaScript, Node js, express js, MongoDB

# PERSONAL PROJECTS

#### **Ecommerce Application**

- Key Skills: Html, Css, Reactjs, Chakra UI, Bootstrap, Expressjs, Nodejs, MongoDB, MERN stack, React-Redux
- This is a realtime fullstack Ecommerce application
- Features: authentication, cart, payment and admin rights",
- RestAPIs created to perform CRUD operations on chat application Chat
- Website link: https://mern-ecomm-shop.herokuapp.com/

#### **Chat Application**

- Key Skills: Html, Css, Reactjs, Chakra UI, Expressjs, Nodejs, MongoDB, MERN stack, Context, Socket.io
- RestAPIs created to perform CRUD operations on chat application
- Chat Application consist of Authentication and real-time chatting functionalities
- Website link: https://mern-bubble-chat.herokuapp.com/

#### **Portfolio Application**

- Key Skills: Html, Css, Reactjs, Chakra UI, Bootstrap, EmailJs MongoDB, MERN stack, Context Api, Socket.io
- This is a React based portfolio web application
- Features: Download Resume, View Resume, Contact page
- Website link: https://kenal-portfolio.herokuapp.com/

# PERSONAL PROJECTS

#### **Voice Based News Application**

- Key Skills: Html, Css, Reactjs, Chakra UI, Bootstrap, Alan Al
- Using this web application user can read latest news, News by categories, News by certain terms and News by sources with voice assistant
- News API is used to fetch the information of the news
- Alan AI features are used for Adding voice based functionalities
- Website link: https://news-voice-ai-webapp.herokuapp.com/

#### **Word Dictionary**

- Key Skills: Html, Css, Reactjs, Material UI
- Used meanings API to fetch all the meanings
- This app displays meaning and examples of entered text
- Website link: https://react-word-dictionary.herokuapp.com/

#### Face Recognition Based Attendance Application
