PROFILE

Experienced **Software Engineer** with **4 years** of expertise in building scalable web and mobile applications. Proficient in **Java, JavaScript, Python** and modern frameworks with strong skills in **system design, team leadership**, and **Agile methodologies**. Eager to leverage my skills in solving the complex technical challenges and delivering customer-centric solutions.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Java, Python, HTML, CSS, C#
Backend: NodeJS, NestJS, ExpressJS, SpringBoot, Spring, ASP.NET, Flask, Django
Frontend: React Native, React, Vue, NextJS, Angular, Redux, Bootstrap
Databases: NoSQL (Mongo, DynamoDB, CloudantDB), SQL (PostgreSQL, MySQL, Oracle, MS SQL)
Cloud & DevOps: GCP, CI/CD, Github Actions, Jira
Testing: Jest, Vitest, Cypress
Version Control: Git, Github, Bitbucket
Architecture: Microservices, MVC, Modularization, API Design (REST API, GraphQL)
Tools/Technologies: Postman, Visual Studio Code, Power Automate, Power Apps, Power BI
Additional Skills: Scrum/Agile, Code Reviews, Technical Documentation, RabbitMQ

PROFESSIONAL EXPERIENCE

Senior Associate II (Full-Stack Engineer) | Kyndryl

Dec 2022 – May 2024

- Led **SDLC** for 15 components using **Agile** practices, enhancing UX and performance through collaborative planning.
- Built responsive **React** and **React Native** interfaces, with backend support using **NodeJS** and **ExpressJS**.
- Improved page load speed by 25% through **RESTful API** to **WebSocket** migration.
- Achieved over **80% code coverage** in SAMBOT using **JEST**, ensuring robust application quality.
- Utilized **CloudantDB** for SAMBOT and **MongoDB** for the Validator Tool enhance data consistency.
- Transitioned **SAMBOT** features to **Validator Tool**, improving **inter-tool** connectivity.
- Improved UX with **Power Automate/Power Apps**, raising customer satisfaction by 20%.

System Engineer (Software Engineer) | Tata Consultancy Services

Oct 2020 – Nov 2022

- Migrated multi-page UI to **React Single Page Application**, improving scalability by 35%.
- Built a **React Native** app for bench booking, leveraging **NodeJS** and **NestJS** for the backend and **PostgreSQL** for database.
- Integrated **GraphQL** for efficient data fetching, enhancing **backend queries**.
- Developed **Python automation scripts** to streamline vehicle testing processes, reducing manual efforts by 75%.
- Mentored** junior developers on **full-stack** development, including **Agile** practices, to enhance team productivity.

Software Developer Intern | Tata Consultancy Services

Jan 2020 – Apr 2020

- Designed **MongoDB** databases and developed **RESTful APIs** using **Spring Boot**, improving 25+ backend functionalities.
- Implemented **Authentication** and **Authorization**, following **MVC** principles to ensure secure user access.
- Utilized **Swagger** for **API documentation**, enhancing usability and simplifying integration for developers.

EDUCATION

Nirma University, India

Jul 2016 – Jun 2020

Bachelor of Technology in Information Technology (Computer Science)

CGPA: 8.16/10

PROJECTS

Ecommerce Web Application | *Express.js, Node.js, MongoDB, React, Chakra UI, Bootstrap, React-Redux* | [Github](#)

- Developed a **scalable e-commerce** platform with an emphasis on **UI/UX** best practices and **secure RESTful API** design.
- Implemented **admin management** system, focusing on robust **system architecture** and **coding best practices**.

Chat Web Application | *Express.js, Node.js, MongoDB, React, Chakra UI, Context API, Socket.io, Heroku* | [Github](#)

- Developed a **real-time** chat application with advanced **user authentication**.
- Optimized for high-load performance, prioritizing **reliability** and **responsiveness**.

Voice Based News Application | *Html, CSS, React, Chakra UI, Bootstrap, Alan Als* | [Github](#)

- Designed a scalable **voice-activated** news platform using **ALAN AI** technology.
- Integrated **real-time data** and enhanced user experience through **voice command** functionality.

CERTIFICATES & TRAININGS

- Developing Cloud Apps with Node.js and React (Coursera)
- Introduction to Cloud Computing (Coursera)
